### Languages

HTML, CSS, JavaScript, C, C++,Java, Python

### Technologies

Git & GitHub, jQuery , Bootstrap

### Other

Agile, Team work

## 📄 PROJECTS

### Portfolio Website [🔗](#)

• My "Portfolio Website" project is a visually appealing online resume created using HTML and CSS. It showcases my skills as a front-end developer with a modern design, including sections for my profile, education, certifications, projects, interests, and contact information. Notable features include a professional profile image, detailed descriptions of my expertise and education, a skills list, certifications, and a portfolio of web development projects. The responsive design ensures it looks great on various devices, making it easy for potential employers to explore my background and skills.

### Drum Kit [🔗](#)

• The "Drum Kit" project is a simple and interactive web application that allows users to play drum sounds by either clicking on virtual drum buttons or pressing corresponding keyboard keys. This project is a fun and educational example of combining HTML, CSS, and JavaScript to create an engaging musical experience.

### Dice [🔗](#)

• Dice is an engaging and interactive web-based application that brings the excitement of a classic two-player dice game to the digital world. It is a simple yet fun project developed using HTML, CSS, and JavaScript, offering users a quick and entertaining way to make decisions, settle disputes, or just have a good time.

## 📄 Certification

Receiving the SkillUp by Simplilearn certificate in front-end development has been a significant achievement for me.
