Other
Agile, Team work

📝 PROJECTS

Portfolio Website 🔗

- I made a cool Portfolio Website using HTML and CSS to show off my front-end development skills. It's got a modern design with sections about me, education, certifications, projects, interests, and how to contact me. It has a professional picture, details about my skills, certifications, and it looks good on any device, making it easy for employers to check out my background and skills.

present

Weather-App 🔗

- This HTML document represents a simple weather app, using JavaScript to fetch weather data from OpenWeatherMap API and dynamically updating the interface. It includes a search feature, error handling for invalid cities, and displays current weather conditions with icons based on the response.

12/2023

Drum Kit 🔗

- Drum Kit project is a fun web app where you can make drum sounds by clicking buttons or pressing keys. Educational and interactive with HTML, CSS, and JavaScript.

09/2023

Dice 🔗

- Dice is a fun web app, like a digital two-player dice game. Made with HTML, CSS, and JavaScript for quick decisions and good times.

08/2023

Flipkart Clone 🔗

- The Flipkart Clone is a web project mimicking the look of Flipkart. It's a hands-on lesson using HTML and CSS for an online shopping site's design.

🏅 Certification

Receiving the SkillUp by Simplilearn certificate in front-end development has been a significant achievement for me.	08/2022
